- 25-26 / 04 /2020
- ONLINE

AJUNTAMENT DE PICASSENT

# BUT, WHAT IS IT?

Generating real and tangible proposals towards a challenge in a defined time and working as a team.

Face-to-face sessions.

What is the best proposal? In any case, the City Council may carry out the creation of the projects presented if it considers them to be of general interest and the circumstances allow it, acknowledging the authors at all times.

As requirements to be able to participate, it is necessary to be 18 years of age or older at the time of registration, have telematics equipment and an optimal Internet connection, and know how to hold online meetings and work with collaborative files.

# OPINION OF THE POLICY MAKERS

As the mayoress of the municipality, Conxa Garcia, has stated, "Given the critical situation we are experiencing due to Covid19, we seek to add talent to generate proposals that reinforce and improve the social immune system of the municipality."

The councilor for the Citizen Participation area, Salvador Morató, adds that, "Ultimately, it is about promoting a space for work and collaboration."

### **HOW WAS IT?**

Topic: the lack of confinement

40 people in 5 groups.

5 areas: the social aspect

- 1. leisure and culture
- 2. health
- 3. prevention
- 4. safe movement
- 5. the local economy

#### FINALLY

- Different measures proposed by different groups were implemented. F.E: marked sidewalks.
- The winning group → "Picazon" that would be a way to boost the trade of the population.
- The city council received an award for the initiative.

#### ALTHOUGH...

The reality of the Covid continued to be very harsh during 2021...
